Effective Date	Aggregate Work Capacity (AWC)	Single Limit (SL)	Classifications
9/25/2017	\$20,000,000.00	\$10,000,000.00	ALARM SYSTEMS, ELECTRICAL

Classification Name	Description
ALARM SYSTEMS	Installation, renovation, repair and maintenance of low voltage fire protection, security and other types of alarm systems.
ELECTRICAL	Installation, renovation, repair and maintenance of electrical wiring, circuits, panel boards, fixtures and equipment, including, such incidental or related work as is customarily performed by those in the electrical trade. To prequalify for Electrical you must have an Electrical Contractor License through the State of Connecticut Department of Consumer Protection.

This certificate prequalifies the named company to bid. It is not a statement of the Contractor's capacity to perform a specific project. That responsibility lies with the awarding authority.

Company Licenses/Registrations: It is the Contractor's responsibility to update their license information by editing their electronic application. Licenses are confirmed by the Department of Administrative Services (DAS) at the time of initial application and at each renewal.

For information regarding the DAS Contractor Prequalification Program visit <http://das.ct.gov/cr1.aspx?page=10> or call (860) 713-5280.
